

Mercy Hospital Extended Care Serving Area

During the process of being certified for Medicare, Sister Mary Hilda, R.S.M., administrator of Mercy Hospital and Mercy Hospital Extended Care Facility discovered that since April 15, 1970 the Mercy Hospital Extended Care Facility, Grayling, Mich. cared for approximately 50 patients from Crawford and various surrounding counties including Roscommon, Oscoda and Montmorency counties.

Services range from supervised convalescence after hospital care to skilled nursing care and the painstaking rehabilitation of stroke victims and other disabled people through physical therapy and careful re-training in the activities of daily living.

There are four full-time registered nurses plus one relief R.N., five licensed practical nurses, 12 nurses' aides and four orderlies. The staff is completely integrated and assigned according to the kind and amount of care required by different individuals.

Sister Mary Hilda states that if all goes well for us this year, we hope to start remodeling on another patient unit in Mercy Hospital. It will contain the most modern equipment recommended for the care of the sick aging of all races.

It is the policy of Mercy Hospital and Mercy Hospital Extended Care Facility to admit and to treat all patients without regard to race, color, or national origin. The same requirements for admission are applied to all and patients are assigned within the facility without regard to race, color, or national origin. There is no distinction in eligibility for, or in the manner of providing, any patient services provided by the nursing facility or by others in or outside of the facility. All facilities of the unit are available without distinction to all patients and visitors regardless of race, color, or national origin. All persons and organizations having occasion either to refer patients for admission or to recommend Mercy Hospital or Mercy Hospital Extended Care Facility are advised to do so without regard to the patient's race, color, or national origin.

UNICEF Trick or Treat

Elementary school students belonging to the Michelson Memorial Methodist Church will be ringing doorbells on Friday, Oct. 30th, not for "Trick or Treat" but for UNICEF. It is expected that about 25-30 children will be collecting funds to help other children throughout the world. Give generously of your pennies, nickels, dimes quarters and even dollars.

UNICEF primarily is concerned about children's immediate needs and supplies, needed supplies and equipment to poverty-stricken children throughout the world. Our young people will be collecting money to purchase these supplies and equipment. Plans are for them to ring doorbells in Grayling from 5 to 6 p.m. on Friday.

After students complete their tour of the city they are to report back to the basement of the Methodist Church. There refreshments will be served.

Anyone wishing to help in this effort is asked to call the office of the Methodist Church by Friday noon.

BOND SAVINGS CONTINUES — Mrs. Claude Halstead, seated at left, hands the first savings stamp book at the elementary school last Thursday morning. Behind Jeff is Mary Goss and Joel Rasmussen. At lower right is Mrs. Thomas Jurkovich, keeping the tally, as Jack Alef and Arthur Thayer look on.

Through the efforts of Arthur Thayer, principal of the elementary school, Mrs. Claude Halstead, and Jack Alef, president of the Grayling State Bank, students of the Grayling Elementary School will continue to save stamps towards the purchase of U. S. Government E Bonds. The government this year discontinued the sale of stamps to school children toward buying of E Bonds, of which the local school had participated in for six years.

In order to continue the practice, a solution was obtained by the local bank finding a source for the stamps and books, which will enable local children the opportunity to continue their savings, Mr. Alef said.

The stamps are in denominations of 25 cents, and when the student has filled their book of \$18.75 an E bond is issued to the person.

According to the Director of Savings for Michigan, Grayling is the only city in Michigan, and possibly the United States where this savings is being continued.

At Kalkaska Friday

Vikings in 6th Win

The Grayling Vikings had a little trouble last Friday night extending their win streak to six games, with a 36-0 rout over the Pellston Hornets.

With the Mancelona Ironmen running over Onaway 32-6, they kept pace with the Vikings, as both teams hold 6-0 records, and are scheduled for a title clash here Nov. 6.

Grayling will travel to Kalkaska this Friday night, remembering last year's next to last game at Onaway, when they were dumped from the undefeated ranks. Mancelona will be playing East Jordan in their tune-up before the big Nov. 6 date.

At Pellston, the game was only 12 seconds old when the Vikings were on the scoreboard. Jim Tobin, Viking scabbard took the opening kickoff and rambled 80 yards for the TD.

By the end of the first quarter, Grayling was leading, 20-0. Murray Babbitt, running from the tailback spot on Grayling's first play from scrimmage rambled 55 yards, with Tim Mead scoring the conversion.

The Vikings defense took over the third TD, as tackle Doug Legg racked the Pellston quarterback with a bone-jarring tackle, separating him from the ball, and Tobin snatched the ball out of the air and went 49 yards for the score.

In the second period, sophomore QB Terry Fitzpatrick scored 8 points as he went in from 3 yards out on a sneak following a sustained drive, and used the option rollout for the conversion.

Mead tossed a TD strike to Brian Duncley good for 48 yards in the 3rd quarter.

Legg playing a great defensive line game, again showed his presence in the final quarter as he broke through and blocked a Pellston punt which bounced out of the end zone for a 2 point safety.

The Vikings defensive team has now scored 25 points, while holding the opponents to 20 in six games. Bob Vollmer replaced Arnold Gilman for the entire game, and recovered 3 fumbles.

"We had a great team effort from our line," Coach Mike Wieland stated, pointing out that Clark Wilcox played an outstanding game at center. "Our line opened the way as Babbitt and Jerry King carried the ball for most of the 211 yards rushing," he added.

Mead hit on 9 of 18 passes for 142 yards, while Tobin had 124 yards in kick returns.

"I don't think the boys will be looking ahead to Mancelona," Coach Wieland said, "Kalkaska has a tough defense, as they held Mancelona to 20 points which was the second lowest score recorded by the Ironmen, this year."

Watershed Council Urges Green Belt Zoning for Grayling

By Willard Bosserman
County Extension Director

The AuSable River Watershed Study Council urged the Grayling city council to adopt green belt zoning to protect that part of the river which flows through Grayling. An incident of stripping the bank of vegetation within the city limits prompted the action.

Willard Bosserman was selected by the study council to represent them on the steering committee of the Michigan conference of watershed councils.

Kenneth Carlisle, chairman of the water quality committee told the group Tuesday night, Oct. 20, that it was time for another comprehensive monitoring of the water. A study comparable to the one done by the water resources commission in 1966 was needed for comparison, he said.

Derek McEvers, Mayor of Grayling reported that the city is ready to go ahead with three aerated oxidation ponds and three leaching beds which will take their sewage effluent out of the river.

Al Westervelt reported that the Wakeley Bridge Canoe Landing will be ready for use next spring. This new landing will relieve a congestion problem at Wakeley Bridge. A fifteen acre site was leased from Consumers Power Company for the landing.

While the attention of the state will be focused on whether Governor William G. Milliken and James H. Brickley, Lt. Governor can fight off the challenge of Sander Levin and Edward H. McNamara for the top executive office — local interest in a d around Crawford County has centered on the board of county commissioners and a city income tax for Grayling.

Three out of the seven districts will have contests for commissioner seats (with the possibility of write-in candidates). In district two, Earl H. Longworth, (R), and John Horton, (D) are opponents. District three has Hal Walker (R) challenging Bernard Maurer (D) and District seven has Fred Kauffman (R) opposing Edith Paul (D).

Various townships in the county have varying situations regarding the offices of supervisor, clerk, treasurer, trustee and constable.

Besides the contest for governor on the state level, Emil Lockwood (R) is challenging Richard H. Austin (D) for the office of Secretary of State to succeed James M. Howe who is retiring. Encumbent Attorney General Frank J. Kelly (D) is being opposed by William S. Farr, Jr. (R).

For congressional seats, incumbent Philip A. Hart (D) is being challenged by Lenore Romney (R) for U.S. Senator, while Gerald J. Parent (D) will be seeking the office of Representative in Congress, 10th District, from incumbent Elford A. Cederberg (R).

Incumbent State Senator, 36th District, John F. Toeppe (R) is opposed by Erika Belmore (D). The office of State Representative, 103rd District, being vacated by retirement of Nelson Tiedale will have Louis K. Crawford (R) opposing Thomas M. Byron (D) for the office.

Two members to the State Board of Education, Regents to the U. of M., trustees of MSU and board of governors to Wayne State U. will also be selected.

On the non-partisan ballot, two Justices to the Supreme Court will be selected from four seeking the seats, which include, John R. Dethmers, present Justice, Edward S. Piggins, John B. Swainson and G. Memmen Williams.

Hold Freshman-Sophomore Day At Kirtland CC

A fun time was reported by all who attended Freshman-Sophomore Day last weekend at Kirtland.

The Sophomores started out on the right track by defeating the Freshman in a tough football game. The Frosh quickly responded with Bill Stafford downing more pies than his Soph opponent. The Freshmen also out-muscled the Sophomores in a tug-of-war, however, in overall scoring for the day, the Sophomores came out on top, 9-2.

Events were finalized as Bob Babion captured the greased pig. She was worth about \$25 worth of pork to Bob and two additional points to the sophomore cause. The day's activities, sponsored by the Student Senate, were capped with a fine catered chicken dinner. Dancing followed for those still in attendance.

Another first on campus last week was the organization of a Veterans' Club. Attended by seven charter members, it was announced that several more students had expressed interest but were unable to be in attendance at this initial meeting. A constitution is being drawn for acceptance at the next meeting, at which time officers will be elected also. The Kirtland Community College Veterans' Club is the first such club organized for the 1970-71 school year.

Vibrations Sew Without Needles

Even the most modest young lady will be able to appear in public without a stitch on!

Sewing without needle or thread, the Ultrasonic Sewing Machine can be used to hem, tuck, base, pleat, seam, slit and buttonhole.

Developed by Branson Sonic Power Company, of Danbury, Connecticut, this high-technology product limits its present application to industrial markets. The new technique sews by welding together synthetic materials with ultrasonic (high frequency) vibrations. The vibrations generate localized heat by causing one piece of material to vibrate against the other, creating a molecular change which joins — or "sews" — the pieces together.

Reports On School Tests

The results of the recent Michigan Assessment Program have been returned to the local school districts for their consideration.

The assessment program which tested students in grades four through seven, has met with a great deal of criticism from outstanding educators throughout the state. Critics chief concerns are the validity of the test results, interference with existing school testing programs, and the use of results for funding criteria for special programs.

Crawford AuSable Schools, compared with schools of comparable size and geographic make up, came out above average in student's attitudes toward school and vocabulary development, nearly average in command of basic skills, and way below average in the amount of money spent to educate each child. Local taxpayer support of the school system was among the lowest in the state according to the survey.

ABWA MEETING

The Grayling Charter Chapter of American Business Women's Association held their regular meeting on Tuesday, October 20 at Chief Shoppenagons Motor Hotel.

Fraser Dean, Assistant Superintendent of Schools, representing "Community Family Services, Inc." was the guest speaker. He showed a film and explained the mental health clinic which is being planned for our area.

Fundraising projects were discussed including the Bazaar, wig and jewelry show and bake sale to be held at West's Lone Pine on December 5. Also, the possibility of selling coffee and donuts at the "buck pole" the first day of hunting season was discussed and was to be looked into.

Mrs. Leila Merrill and Mrs. Clark Hancock of the Nokomis Charter Chapter of Midland were guests of the club. Mrs. Merrill brought materials she had received from National and explained the things we must do to reach our Standard of Achievement and also the requirements to be a "Banner Chapter".

Due to the length of the meeting, installation of our new members was postponed until next month. The November meeting will be held at the Penguin Inn on November 17. This is the first anniversary of our club so let's all turn out.

Helen Johnson, Publicity

Are people your problem?

Is the world becoming too crowded for you? Almost wherever you go today, you find people. This sometimes results in problems — for you as well as for others. What's the solution?

It's certainly not avoiding people — even if you could. But you can avoid having problems with them! The key to solving people-to-people problems is understanding what people really are. The Bible reveals man as having a spiritual nature. How this can help you in your relations with others will be discussed by Thomas O. Poyser, C.S.B., a member of The Christian Science Board of Lectureship. His lecture is entitled "Are People Your Problem?"

Come and bring your neighbor. Admission is free.

Some Harsh Views

Nation's Business reports, "Campus turmoil has cut deeply into businessmen's enthusiasm for further contributions to colleges." It quotes a number of more or less typical businessmen's reasons for terminating contributions to colleges and universities. They range from, "I will not contribute to irresponsible college administrators or teachers" to "They can burn down all the million-dollar facilities they desire. I just won't pay to rebuild them." Another businessman believes business should support only those colleges that teach students "to be better Americans and useful citizens."

These are harsh views, coming as they do from business leaders and citizens on whom the U. S. educational system must depend for support. On the other hand, they may result in the raising of educational standards to meet the needs of millions of young and serious Americans on whose shoulders will fall the responsibility of becoming tomorrow's leaders in business, industry and government.

Pillars of Freedom

A belief is gaining currency that repressive government may be the only answer to growing violence. Mr. J. Edgar Hoover, director of the Federal Bureau of Investigation, expresses a different view. He says, "Some people imply that our choice today may be between anarchy and repression. Indeed, it is not. Our choice today is the same as that of our Founding Fathers some 200 years ago — liberty and freedom under the rule of law. If we enforce the law when it is violated, we will perpetuate this choice, and we will have nothing to fear from either anarchy or repression. Thus, let us make certain that the distinction is clear — the law and its enforcement are pillars of freedom, not repression."

TAXPAYERS — VOTE YES To SAVE Our CONSTITUTION!

Don't let anyone - politician, business leader, or government official - blind you to the fact that our Constitution is in jeopardy. The Central question to be asked in the midst of the panic of "Proposal C Phobia" is this: "Shall the Constitution of Michigan prevent any religious body from using the tax powers of the State to support a private, religious, special privilege group by supporting their system of parochial education? If so, then vote YES on 'Proposal C'."

If you believe that those who choose private schools (perhaps because they do not like the public schools or because they want religious education) should support their own parochial education without forcing all people to do so, then vote YES on "Proposal C."

"Proposal C Phobia" has thrown a huge smoke screen around the facts. Six states, including Illinois and New York, have constitutional restrictions on public support for non-public schools similar to our proposed amendment. **NO FEDERAL FUNDS HAVE BEEN DENIED NON-PUBLIC SCHOOLS FOR DISADVANTAGED PUPILS BECAUSE OF SUCH AMENDMENTS.**

"Proposal C" will not mean withholding auxiliary services from non-public school children. The State Constitution requires that classes in public schools be open to all youngsters regardless of race, creed or color - how then can students be barred from special education classes held at public schools, just because they are parochial students?

The argument that parochial schools will lose their tax exempt status under proposal C is patently false. Article IX, Section 4 of the Michigan Constitution specifies that such exemptions are guaranteed. And, where, pray tell, do parochial forces get their claims that this amendment would prohibit fire and police protection - when have water, sewage, fire protection, public football fields, or social services ever been denied to any church or synagogue?

"Proposal C" all boils down to the question of whether we will be forced to pay twenty-two million dollars to buy off a segment of the electorate at the cost of the Constitution. It's just that simple. If you do not want to have to pay for more than one educational system, and want to maintain the traditional separation of Church and State then you will want to vote YES on Proposition C.

Birds Winging South in Autumn Migration

WASHINGTON — That har-binger of winter — robin red-breast — is on the wing, flying south.

For Guatemalans, the first robin can be as sure a sign of coming winter as it is a traditional herald of spring when it flies north with the melting snow in Illinois and New Jersey.

The robin is only one among the thousands of species of birds billions strong now taking to the air in another repeat performance of one of nature's greatest spectacles: the twice-yearly migration of the birds.

After centuries of watching in wonderment, man still does not exactly know how or why birds may fly perhaps a third or more the width of the world every autumn, and then return to their breeding grounds — sometimes to the same nest — in the spring.

Fanciful Theories
But scientists think they finally may be closer to solving the mystery, with theories that may sound as fanciful as the explanations of the ancients, the National Geographic Society says.

Aristotle and other philosopher-naturalists of Greece noted the migrations, but thought swallows and some other birds spent the winter in hibernation or sleeping in hollow trees, caves, or even beneath mud in marshes.

New England's famed Puritan preacher, Cotton Mather, proclaimed "The Wild Pigeons on Leaving us Repair to Some Undiscovered Satellite Accompanying the Earth at a Near Distance."

Sparrows and some robins seldom migrate at all, braving the snow and cold, and bobwhite, quail, and cardinals may never fly more than 10 miles from the nest where they were hatched.

25,000 Miles a Year
Other birds make epic flights: The arctic tern migrates from the land of the snowy owl to the South Polar home of the penguin, then returns as the seasons change, perhaps flying 25,000 miles a year.

Most bigger birds fly by day, a few thousands of miles without stopping to feed. But 90 percent of the migration is at night, including that of most small birds, despite the legend that they hitchhike on the backs of the bigger fliers.

Flocks of migrating birds do ride prevailing north and south winds.

How do birds navigate? Scientists' elaborate experiments indicate that some birds, at least, may actually use sightings of the sun and stars.

Other theories indicate they may find their way by somehow sensing the varying forces of gravity and magnetic attraction around the Earth, or by reacting to the Coriolis force produced by the Earth's rotation.

But birds are also apparently not above taking shortcuts on their migrations. Swiss birds

"If It Fitz . . ."

**Follow
The Pigtail**

By Jim Fitzgerald

I've said it before and now it's time to say it again: there is no view to which distance lends more enchantment than the view of a high school marching band.

The uniforms are usually 25 years older than the kids in them. And when your pants are dragging, and your hat is wobbling, it is hard to march in step while reading music and blowing a horn. Especially when the kid in front of you trips over the shadow of the goal post.

I first revealed my apathy toward marching bands several years ago, when my oldest daughter became a majorette. A wise columnist never knocks something kids are doing unless his own kid is also doing it. This way, he doesn't catch so much heck from other parents who think marching bands are great and their particular kid is John Philip Sousa. These parents think the columnist is an ignorant jerk, plus a lousy father, but they withhold their criticism because they know the jerk columnist will only say: "I didn't say anything about your kid that I didn't say about my own."

Anyway, the majorette daughter didn't turn out to be such a bad deal. She was out in front of the band and I could see her when she fumbled the baton. I was glad she wasn't one of the 36 clarinet players. I marveled at the parents who ran alongside parades, snapping photographs of horn players. "How can they tell which kid is theirs?" I wondered.

Well, my favorite majorette strutted off into the arc lights long ago, subsequently turning this neighborhood swinger into just another grandfather. But now comes Daughter No. 2. And she is a clarinet player. Oh me.

"I will buy you that \$125 horn on just one condition," I told her, "and that is if you make the band, I don't have to go watch you play." She agreed.

But her mother didn't. Chrissie ("Call me Chris!") made the band. Her first marching performance was just the other night. I said I wasn't going.

"What kind of a father are you?" my wife asked. "I am the father of 1 horn player, not 50. But from 100 yards away, I won't be able to tell which of them is mine. You can't even tell which ones are daughters," I pleaded.

"Chris is putting her hair in a pigtail. She has the longest hair in school. All you have to do is follow the bouncing pigtail," my wife said.

So, to the surprise of absolutely no one, I went to the game. Let's face it, I knew all along I was going. I just said I wasn't because I love the way my wife looks when she's angry. (They don't make movies like that anymore).

All during halftime I kept my eyes on that pigtail. I even nudged the guy next to me and said, "Hey, see that pigtail? That's my daughter."

"I'd love to meet your wife," he said, moving 2 seats away. But seriously, folks, I was as proud as any dad there. Chrissie didn't fall down once. And after the game, I sought after that pigtail to tell her she did well and I really love her very much, even if I don't like clarinets.

But there was no pigtail in sight. I circulated through that entire band and not 1 girl had a pigtail. Mystery.

It would make a terrific ending to this nonsense if I could report I'd spent halftime admiring the marching of a Chinese laundry boy.

But the truth will out. When the music ended, Chrissie quickly undid her hair for fear she might be mistaken for a non-hippie. It blew in her face and I couldn't tell her from the other clarinet players with hair in their faces.

Onward and Upward, especially fathers.

SUNDAY'S SERMON

GOD'S PATIENCE

Some of us seem to believe so strongly that God is all-good to the extent we need only ask forgiveness to wash away any responsibility for wrongdoing. We anticipate God's mercy, even before we commit ourselves to a course or to an action which we know is not in keeping with God's will.

We should remember equally well that God is just. God does not rebuke. God has no aim to punish. Yet, God can be anything but pleased when time and again we come in search of forgiveness. Jesus met the temptations of life upon earth with determination and single purpose. We are not so perfect, but we should have the faith and the love of God sufficient to live a moderately good life.

We should not be so quick to rest God's patience.

Headed For A Thud

by Richard L. Millman

We're thundering down the homestretch toward the Nov. 3 election, and the distinct impression remains that this has been a most non-stimulating election experience so far.

In plain words, it has been a dull campaign. Nov. 3 will arrive with a thud. There seems to have been aroused very little genuine interest. Perhaps the auto strike has a bearing; perhaps it has been the general concern over pocketbook matters which has been building for the past year or so; perhaps it is the similarity of style and background of the two main candidates for the top spot of governor. The fact remains the people do not seem to be aroused.

Several factors could influence the outcome even yet, and nobody can predict exactly what effect these factors will have.

I speak of the auto strike. Does this mean that the usual Democratic-labor machine will not operate as effectively as it can, because of the pre-occupation with bargaining? Or does it mean the labor boys will pitch in even harder for their Democratic favorites because of the strike?

I speak also of an expected low turnout. By every measuring stick, voter turnout is lighter in a non-presidential year than when we pick a president; by most other measuring sticks, the interest in the election this year is not at a fever pitch, so the turnout may be lower than its normal

low. Does this mean the Milliken forces will be better off, or will the Democrats? You can hear arguments both ways, but nobody knows for certain.

I speak also of Proposal C, which, if adopted, would ban public support for private education, including the recently-adopted parochial plan. Proposal C is generating more emotion than anything else so far in sight; but will the emotion translate into votes? Most samplings indicate the bulk of the people don't understand what's involved; there are thousands, of course, who see the entire election only in terms of the issues involved in Proposal C. Will Gov. Milliken — who proposed parochial aid and opposes Proposal C — be helped for these stands? Or did Sen. Levin — who opposes parochial aid but also opposes Proposal C — blunt enough of Milliken's position to salvage support? Or will Levin's not-easily-explained position work against him?

Most elections are difficult to plot in advance, and this year's is no exception.

There ought to be a law about how proposed statewide referenda are worded. For example, there should be a law against obverse wording of proposals.

Take the aforementioned Proposal C for an

example. It centers on the controversial parochial law, but goes far beyond parochial itself in its application. Just how far it goes no two eminent legal scholars seem to agree at the moment, and — if adopted — certainly will require years of judicial interpretation to see what really is involved.

At any rate, the wording of the proposal is such that if you FAVOR parochial aid and other use of public money for various programs in private schools (the so-called auxiliary services), then you must vote NO on the proposal.

But if you are AGAINST parochial aid and the other programs involved, you must vote YES.

That's because the specific question before the voters is to PROHIBIT the various programs of state assistance to children in private schools.

The confusion about the wording, plus the contradictions on what the actual extent and ramifications of the proposal may be, plus the fact that it's on a separate ballot, certainly will hold down the total vote on this question. Whether this will help or hurt one side or the other is an open question.

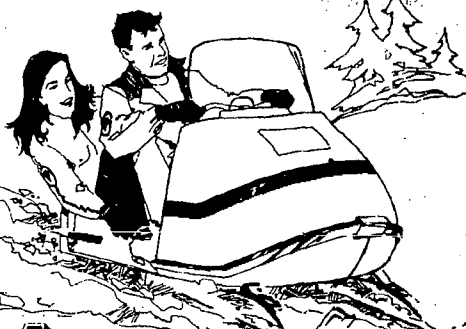

And speaking of proposals, what ever happened to Proposal A and Proposal B?

Candidate For Court of Appeals Visits in Grayling

Louis K. Cramton, Midland Republican candidate for state representative played host Saturday to Judge James E. Carr, Coldwater candidate for the non-partisan State Court of Appeals. Cramton set up a series of coffee stops scattered through the 103rd legislative district starting with an "eye-opener" session in Beaverton. Other stops in Gladwin, Houghton Lake, Grayling and Lake City were made by the two candidates. Carr's district includes 66 counties. It is his first try for office at the state level, having served several years in Branch County. At each stop Judge Carr briefly explained his philosophy toward a judge's responsibility to interpret the law as it is written — rather than attempt to accomplish social reform with his judicial opinions.

Attend The Church Of Your Choice

The world never looked so empty — gray and overcast, and no one to talk to. Depressed, I stepped to the window sightlessly taking in the familiar view.

Off to the left, unremembered, was the church steeple. It thrust up out of the green trees like a white exclamation point in my mind.

Suddenly, I wanted to laugh out loud. How foolish of me to think of myself as alone! We are never alone; God has promised us that.

I thanked Him for the steeple, the visible reminder of His love, and for the whole Church which draws men together against the emptiness of the world.

Bailey-Hoppe Speak Vows Oct. 10

The wedding vows of Miss Gail Joy Bailey and Stanley Carl Hoppe were spoken Saturday evening, October 10, at Michelson Memorial United Methodist Church in Grayling. Rev. Paul Frederick performed the ceremony.

Parents of the bride are Mr. and Mrs. Garrett D. Bailey of 708 Ogden St., Grayling. The groom is the son of Mr. and Mrs. Herbert Hoppe of South Boardman.

The bride, given in marriage by her father, chose a lace and chiffon gown with a rose lace bodice. The skirt was accented with a bouffant train. A crystal and pearl crown held her bouffant veil and she carried a bouquet of yellow roses and white chrysanthemums.

Donna Bailey, maid of honor, wore a yellow formal-length gown of tulle with lace bodice and train. She also carried a bouquet of yellow roses and white chrysanthemums. Similarly attired were the bridesmaids, Donna Lee Wakley, Jeannie Stagle and Vickie Bailey. Roy Gerling of South Boardman was best man. Groomsmen were Allen Gerring, Garrett Bailey and Larry Prough. Randy Bailey, brother of the bride, and Floyd Prough, cousin of the groom, served as ushers.

Mother of the bride, Mrs. Bailey, chose a blue metallic dress with blue lace coat and silver metallic accessories. The groom's mother chose a mint green suit dress with black accessories for her son's wedding. Both mothers wore corsages of pink and red roses, as did Mrs. Opal Slagle, grandmother of the bride, and Mrs. Bertha Hoppe, grandmother of the groom.

A wedding reception for 200 guests was held at the American Legion Hall following the ceremony.

After their honeymoon in the Upper Peninsula and Saginaw, the newlyweds are making their home at 207 Alger St. in Grayling.

Mr. and Mrs. Brad Morrow and son, Christopher, of Vancouver, Wash. were recent guests of Mr. and Mrs. Lawrence Hunter. Mrs. Morrow is Mrs. Hunter's niece.

Mr. and Mrs. Lawrence Hunter left Friday and spent the weekend in Hillsdale. They attended Parents day at Hillsdale College where their son John is a student.

Mrs. Evelyn Sullivan and son spent the week visiting her parents, Mr. and Mrs. Don Smock. Her husband John came up Friday from a wood to pick them up. They plan on moving next week to Canton, Ohio.

Mr. and Mrs. Jack Wilson and daughter Patty Jo were in Mt. Pleasant Saturday before last to attend the Homecoming game and visit their sons, Doug and Howard who attend C.M.U.

Shirley Johnston received word early Wednesday morning of the death of her father, C. M. Harney, better known as Bum of Nowata, Oklahoma. Moving worked at the Pure Oil Co. and later Union Oil Co. for many years here. A son, Jack, also lives here and a daughter Betty Williams of Alma, as well as Shirley. Our sympathy goes out to his family.

Mrs. Laura McLeod, George Schroeder and Mr. and Mrs. William McLeod were dinner guests last Sunday of the latter son and family, Mr. and Mrs. Richard McLeod of Fairview.

The Walter Mangsens returned home last Wednesday after spending a week in Detroit visiting.

SPANISH STUDENTS ATTEND MSU BALLET

A large number of Spanish students had the opportunity to see and hear the Ballet Folklorico from Mexico on October 19 when it was performed at the Fairchild Auditorium at M.S.U. East Lansing, as part of the University Concert Series.

The dances and songs were based on Mexican history and legend, and included the famous Deer Dance of the Yaqui Indians, the Dance of the Little Old Men of Juarez, the lovely Wedding on the Isthmus of Tehuantepec, as well as many others so colorful it would be difficult to choose which was most outstanding.

The costuming was fantastically beautiful, the chorus excellent, and the total production was magnificent, both in the production and in the variety of the numbers.

Thanks are extended to the parents who drove: Mr. and Mrs. Don Sorenson, Mrs. Larry McNamara, Mrs. Bernard Fowler, Mrs. Ralph Hoffman, Mrs. Leonard Knibbs, as well as Mr. and Mrs. Joseph Stripe, who made the arrangements for this excursion.

Mr. and Mrs. Kenneth Wyman were also scheduled to go but their plans were changed at the last minute.

LOU CRAMTON For Better Representation

I will work to keep you informed what is happening in Lansing — and what it may mean to you.

I will welcome your letters, answer them as promptly as possible. I care what you think about our state problems.

I will give you straight answers on where I stand on issues.

I will be available. I will make frequent visits to Grayling so that you can talk to me about legislation — or enlist my help on problems you may have with state agencies.

To represent you, your man in Lansing must make an effort to remain close to each part of the district — to spend as much time as the job permits in each part of the district. You have my pledge to do just that. It will be a pleasure.

Sincerely,

Lou Cramton
